Employees and workers covered by performance and career development reviews

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/No). If yes, the coverage such system?

Yes. RIL has implemented an Operating Management System (OMS) that addresses the aspects of Occupational Health and Safety, including process safety. The OMS covers all the operating entities under the Company's O2C and E&P businesses.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Identification and mitigation of risks is central to the OMS. The OMS defines the requirements to identify the hazards, assess the risks, define the barriers and provide risk mitigation measures, which is key to preventing incidents impacting people, assets and the environment. Cross-functional operating teams review and update these risks owing to changes in the operating landscape or at least once a year. The teams use a Hazard

Identification and Task Risk Assessment Process to identify and assess task-related hazards in both routine and non-routine operating activities. The engineer in-charge conducts Tool Box Talk sessions where they explain all the work-related hazards and risks to the job executors.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes, all employees and workers are involved in identifying work-related hazards and report unsafe conditions/behaviours. They are also empowered to implement control measures for preventing and mitigating these risks, or to withdraw from the hazardous situation, if necessary, including stopping the unsafe activity.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/No)

Yes, all employees / workers are fully taken care of on account of all medical - exigencies or otherwise.

ESSENTIAL INDICATORS

Lost Time Injury Frequency Rate (LTIFR):
(No. of lost time injuries in FY x 1,000,000) / (Total hours worked by all staff in same FY)

Lost time is an indicator of the loss of productivity for an organisation as a result of a work-related injury or ill-health. Work-related injury and ill-health arise from exposure to hazards at work and are directly related to performance of work-related tasks.

Recordable work-related injury or ill-health results in any of the following: death, days away from work, restricted work or transfer to another job, medical treatment beyond first aid, or loss of consciousness. While high consequence work-related injury or ill-health results in an injury from which the employee / worker cannot or is not expected to recover fully to the previous health status. This disclosure excludes fatalities.

11. Details of safety related incidents, in the following format:

Safety Incident/Number	Category*	FY 2024-25	FY 2023-24
Lost Time Injury Frequency Rate (LTIFR) (per one million-person hours worked)	Employees	0.32	0.29
	Workers	0.18	0.08
Total recordable work-related injuries	Employees	14	13
	Workers	31	16
No. of fatalities	Employees	0	0
	Workers#	3	1
High consequence work-related injury or ill-health (excluding fatalities)	Employees	0	0
	Workers	0	0

*Including in the contract workforce

#Includes traffic incidents at sites.

Note: For Essential 11 and Leadership 3 indicators, workers include third-party contractors. This definition is applicable to these two tables only. The reporting boundary for health and safety indicators includes the Company's plants in Oil to Chemical business, and Oil and Gas (Exploration & Production) business in India.

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

Ensuring the safety and health of the workforce has been and will continue to be of paramount importance for RIL.

1. Workforce are proactively engaged and involved in aspects related to their safety and well-being. The workforce is encouraged to report workplace-related near-misses, unsafe acts, and unsafe conditions.

2. RIL has implemented an Operating Management System (OMS) which systematically addresses the identification of hazards at the workplace, communication of the risks and the application of controls to prevent and mitigate these risks.
3. The workforce undergoes an induction before starting work so that they are familiarised with the work processes, safety rules and the hazards and the related controls in their respective tasks.

4. The workforce is involved in safety programmes. A key element of OMS is the system to identify and control hazards, identifying the hazards and assessing them with a risk framework. These risks are refreshed before the start of any work or as and when an aspect changes, by cross-functional operating teams.
5. RIL has established a robust process for hazard identification and risk assessment for tasks that may pose a risk and puts in place control measures to mitigate the identified risks.
6. The operating managers continuously interact with the workforce in the field to observe their behaviours, have a conversation to recognise their good behaviour or coach them to correct their behaviours if required and listen to their feedback if they have any safety concerns.
7. The workforce is continuously involved in analysis of workplace conditions to identify and eliminate potential or existing hazards; this ensures they are aware of the hazards for each job and process and the role that they have in controlling the hazard.
8. Health risks related to operations are identified and evaluated through carrying out pre-employment and periodical medical check-up of the employees.
9. The process and operational changes are carried out through well-defined "Management of Change" process.
10. RIL has implemented a risk-based internal self-assessment programme to monitor that operating activities are being carried out in accordance with the set procedures/practices. This includes auditing of the procedures and processes to validate that they are performing as intended.

13. Number of Complaints on the following made by employees and workers:

	FY 2024-25			FY 2023-24		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks
Working Conditions	0	0	0	0	0	0
Health & Safety	0	0	0	0	0	0

14. Assessments for the year:

% of your plants and offices that were assessed (by entity or statutory authorities or third parties)	
Health and safety practices	100
Working Conditions	100

Note: In addition, sites undergo periodic statutory audits related to aspects of health & safety practices and working conditions.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

The Company has established and digitised an integrated incident management application, which is used to manage reporting, investigating, action tracking and learnings from internal and external incidents. This ensures that controls are embedded in the process and provides visibility and monitoring of the actions. Safety-related incidents are investigated, and recommendations are timely implemented to avoid recurrence. A well-entrenched process for lessons learnt from every incident is also in place. This ensures the Company learns from investigations

and takes preventive actions across the organisation. The process engages subject matter experts in arriving at root causes and developing corrective & preventive actions. These findings are discussed by cross-functional teams in various forums to share learnings in a simplified manner to the workforce. RIL has implemented a risk-based internal self-assessment programme to monitor and ensure that operating activities are being carried out in accordance with the set procedures/practices. This includes auditing of the procedures and processes to validate that they are performing as intended and to avoid any untoward incident.

The Company has enhanced safety training for entire workforce including trade validation.

LEADERSHIP INDICATORS

1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N).

Yes, Reliance provides all statutory benefits, along with additional coverage such as Group Term Insurance. In the case of COVID-related deaths, the Company offers comprehensive support to the family and children, ensuring their livelihood and educational needs are met. For any in-service demise, the Company takes a compassionate, case-by-case approach, addressing the specific needs of the deceased employee's family.

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

- Domestic: Depositing of statutory dues and filing of returns by value chain partners are cross checked by system with data available on Government portals. In case any deficiency/mismatch is observed, respective team takes up with the value chain partners for review and corrections.
- International Trading: All statutory dues deducted (like TDS) / charged (like GST) by the channel partners are validated and reconciled by independent verification with the respective Government websites to ensure that appropriate credit has been received by us. For any foreign withholding taxes, the Company gets in touch

with the channel partner and gets appropriate withholding tax certificate from them. In case, it finds any discrepancy, follow up is made with the channel partner to ensure proper credit is received.

- Chartering:
 - Reliance has third-party vetting as well as in-house marine vetting for all its ships taken on spot or time charter. Ships are assessed based on various parameters like inspection reports, any past incident details, operator's past records, experience matrix of the crew, etc. The ships are chartered only after thorough vetting. In case of any safety concern arising from the vetting, same is scrutinised in detail and counterparties are asked to submit the risk mitigation analysis before a contract is entered with them.
 - In the Company's ship chartering contracts, relevant clauses are in place. If the responsibility for statutory dues (Freight Tax & GST) is on counter party's account, the Company ensures that the same is deposited with relevant authorities before remitting the freight.
- Deduction of statutory dues is ensured through contract and undertaken by Money, Materials and Compliance (MMC). Payment of GST and TCS is made to vendors only after respective payments are reflected at relevant government portals.

3. Provide the number of employees / workers having suffered high consequence work-related injury / ill health / fatalities (as reported in Q11 of Essential Indicators above), who have been rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment: ✓

	Total no. of affected employees/workers		No. of employees/workers that are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment	
	FY 2024-25	FY 2023-24	FY 2024-25	FY 2023-24
Employee	0	0	0	0
Workers	3	1	0	0

Note: Fatality count includes traffic incidents involving material handling equipment. Reverse cameras installed on all major material handling equipment to prevent recurrence of similar incidents.

4. Does the entity provide transition assistance programs to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/No)

Yes. All support required by any employee superannuating from the Company is fully provided as required by the employee and appropriate. For example, ageless ageing workshops are conducted to help superannuating employees plan their post-retirement lives.

5. Details on assessment of value chain partners:

% of value chain partners (by value of business done with such partners) that were assessed

Health and safety practices	38%
Working Conditions	38%

Note: As part of our 'Sustainability Excellence Programme', we are working with an independent third-party sustainability assessment provider 'EcoVadis'. This assessment evaluates the performance of our value chain partners on 21 parameters covering 4 broader areas: Environment, Labour & Human Rights, Ethics, and Sustainable Procurement which covers the requirement of this indicator. We have engaged with 80% of our suppliers, and assessed 38% value chain partners. Furthermore, in the current year, RIL has begun evaluating 12% of its customers by value through an additional third-party assessment process.

Additionally, for health and safety, onsite supplier assessments are conducted during the empanelment of new suppliers, either by RIL employees or through accredited third-party agencies such as Lloyd's, TUV, or BVQI. During the year, approximately 375 suppliers and 12,434 shipments have been assessed through this process. Additionally, an annual supplier survey is conducted, where 3,475 suppliers (responsible for material and service deliveries worth ₹ 20,450 crore) were evaluated by cross-functional teams using both qualitative and quantitative performance metrics. Suppliers are graded based on their performance, and those requiring improvement are appropriately informed and supported.

With respect to working conditions, our Supplier Code of Conduct (SCoC) emphasises the importance of occupational health and safety, and we expect our suppliers to demonstrate a strong commitment to providing a safe working environment for their employees. All contractors deploying contract workers are required to undergo a mandatory safety assessment and training before commencing work at our sites.

6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.

With its value chain spread across the globe, it is instrumental for Reliance to advance sustainability along the whole value chain to foster positive economic, environmental and societal impacts and create prosperity.

The Company views robust health and safety practices and a respectful workplace as critical business enablers. Accordingly, the Supplier Code of Conduct (SCoC) emphasises the adoption of best-in-class health and safety standards and the maintenance of appropriate working conditions across our value chain. The SCoC is embedded into all the business transactions, with suppliers affirming their commitment to RIL's expectations.

To further strengthen the engagement, the Company has invited suppliers to participate in the EcoVadis Sustainability Assessment—an internationally recognised evaluation covering a wide range of sustainability topics, with a strong focus on supply chain responsibility. This serves as a key platform to collaborate with the suppliers and integrate them into Reliance's sustainability journey.

During the reporting period, no significant risks or concerns related to health and safety practices or working conditions were identified through the EcoVadis assessments of our value chain partners.

Reliance has third-party vetting as well as in-house marine vetting for all its ships taken on spot or time charter. Ships are assessed based on various parameters like inspection reports, any past incident details, operator's past records, experience matrix of the crew, etc. The ships are chartered only after thorough vetting. In case of any safety concern arising from the vetting, same is scrutinised in detail and counterparties are asked to submit the risk mitigation analysis before a contract is entered into.

✓ All indicators that are assured.
